FUNDAMENTOS DEL RIZADO

Para lograr resultados óptimos, aplique una loción fijadora ligera al cabello antes de secarlo.

➊ Divida el cabello en secciones de 1 pulgada (2.5 cm).

➋ Empezando a 2 pulgadas (5 cm) de la raíz, enrolle el cabello alrededor del tubo hacia la extremidad.

➌ Sostenga el cabello por las puntas durante 5 a 8 segundos (según el tipo de cabello), luego desenrolle delicadamente el cabello. Siempre obtendrá hermosos resultados, fácil y rápidamente. Para obtener rizos más apretados, divida el cabello en secciones más finas. Para obtener ondas más sueltas, enrolle más cabello. Permita que el cabello enfríe antes de peinarlo para "fijar" los rizos.

➍ Repita el proceso con las otras secciones de cabello.

Instrucciones
Modelo CD117R

CAUTION
NEVER allow the power supply cord to be pulled, twisted, or severely bent. Never wrap the cord tightly around the appliance. Damage will occur at the high flex point of entry into the appliance, causing it to rupture and short circuit. Inspect the cord frequently for damage. Stop use immediately if damage is visible or if unit stops or operates intermittently.

USER MAINTENANCE
Your curling wand is virtually maintenance-free. No lubrication is needed. Keep all vents and openings clear of dirt and dust. If cleaning becomes necessary, disconnect the unit from the power source, allow to cool and wipe exterior with a cloth. If any abnormal condition occurs, unplug the unit, allow it to cool, and return it for repair to an authorized service representative only. No repairs should be attempted by the consumer.

When not in use, your appliance is easy to store. Allow appliance to cool, then simply store out of reach of children in a safe, dry location. Do not jerk or strain cord at plug connections. Do not wrap the line cord around the appliance. Allow the cord to hang or lie loose and straight at the point of entry into the appliance.
